Preface

The following conventions are used in this document:

Bold	Used for information that is typed, pressed, or selected in executables and instructions. For example, select connect to host .
<i>Italics</i>	Used for file names, directories, scripts, commands, user IDs, document names, and Bibliography references; and any unusual computerese the first time it is used in text.
<u>Underline</u>	Used for emphasis.
Arrows <>	Used to identify keys on the keyboard. For example <Return>.
“Quotation Marks”	Used to identify informal, computer-generated queries and reports, or coined names; and to clarify a term when it appears for the first time. For example “Data-Generation Report.”
Courier Font	Used to denote anything as it appears on the screen or command lines. For example <code>tar xvf dev/rmt/3mm</code> .
Capitalization	Used to identify keys, screen icons, screen buttons, field, and menu names.

1. Software Version Description

1.1 Scope

This Software Version Description (SVD) contains a description of the Netscape Collabra Server (NSCBRA) segment for the Defense Information Infrastructure (DII) for Windows NT-based machines.

1.1.1 Identification

Segment Name:	Netscape Collabra Server
Segment Type:	COTS
Prefix:	NSCBRA
Home Directory:	<i>C:/h/COTS/NSCBRA</i>
Required License:	Netscape Collabra Server License
Version Number:	1.0.0.0/3.01
Platform:	Intel PC/Windows NT 4.0

1.1.2 System Overview

Purpose: NSCBRA is a standards-based discussion server that makes collaboration on intranets and extranets easy and effective.

Usage: NSCBRA provides a collaboration service through discussion groups. A company's employees can participate in private "virtual meetings" that break down barriers of time and distance.

References: "Netscape Collabra Server - Administrator's Guide (NT)" from Netscape Communications Corporation (accompanies each licensed copy of the Netscape Collabra Server). On-line documentation accompanies the software, and additional documentation can be downloaded from Netscape at <http://www.netscape.com/>.

1.1.3 Product Information

Product Qualification: NSCBRA has been approved for delivery by the DII Engineering office.

Product Restrictions: DISA purchased a 95,000 person user license for each of the SuiteSpot servers. Thus, as long as fewer than 95,001 users are being served, DISA can deploy an unlimited number of Netscape Collabra Servers. This product

can not be distributed to foreign countries.

Product This segment requires that a functioning web browser program be present on
Dependencies: the system prior to installation.

This segment requires that the commercial off-the-shelf (COTS) product, Netscape Collabra Server, be installed on the target computer before the actual segment is installed via the COE Installer program. If the incorrect version of Netscape Collabra Server is installed, the installation will terminate.

2. Referenced Documents

This and other segment documentation provides segment description and installation instructions. User administration and usage is provided in the Netscape Collabra Server Administrator's Guide for Windows NT. Further information about this product can be obtained from the Netscape Communications Corporation web site at:

http://search.netscape.com/comprod/server_central/index.html

This page intentionally left blank.

3. Version Description

3.1 Inventory of Material Released

Two 3.5" diskettes comprise the software delivery. One is labeled "1 of 1; master" and the other "1 of 1; backup." Each disk contains NSCBRA in "MakeInstall" format. Also included in the delivery are 3.5" floppy disks containing the delivery documentation.

3.2 Inventory of Software Contents

The software delivered is "Collabra Server, Version 3.01" as produced by Netscape Communications Corporation.

3.3 Changes Installed

Not applicable.

3.4 Waivers

The following delivery documents have been waived by the DII Engineering Office: Software Requirements Specification, Database Design Document, System Administrator's Manual, Software User's Manual, Operator's Manual, and Software Test Plan.

3.5 Adaptation Data

Not applicable.

3.6 Installation Instructions

Installation Instructions for this segment are provided in a separate document. The segment requires 32 MB of disk space and 32 MB of RAM.

3.7 Possible Problems and Known Errors

None.

This page intentionally left blank.

4. Notes

None.
